## Colorado Springs Staff Expands

Andre Brackin, PE, has joined Wilson & Company's Colorado Springs staff.

"I'm very excited to have Andre join us at Wilson & Company," said Vancel Fossinger, Colorado Stormwater Operations Manager. "He recently retired as the County Engineer for El Paso County after 20 years of service. Andre provided great engineering leadership and managed significant transportation projects. He also has a background and special interest in stormwater projects. He has been recognized for providing very responsive service and cost-effective infrastructure solutions, and we're glad to have him as a member of our team."

**Andre** is a Senior Project Manager with more than 27 years of experience in civil engineering, having performed design and project/program management in local, state, and federal agencies, as well as the private sector. His background includes hydraulics and hydrology, water quality design, construction management and inspections, erosion control supervision, asset management, traffic safety operations, drainage facility design, and storm water management.

He has a bachelor's degree in Civil Engineering from Auburn University, and a master's degree in Public Administration from the University of Colorado. He is a licensed professional engineer in Colorado. He is a member of the National Association of County Engineers (NACE), Colorado Counties, Inc. (CCI), American Society of Civil Engineers (ASCE), Colorado Asphalt Paving Association (CAPA), American Public Works Association (APWA), and the Colorado Association of Storm Water & Flood Plain Managers (CASFM).
