Denver Staff Expands Again

Wilson & Company recently added two more employees to the team.

"We are excited to add Andrew and John to the Denver team," said Jim Godwin, Denver Site/Civil Operations Manager. "They both bring experience in the commercial and residential markets, and add significant depth of expertise to the team."

Andrew Schafer, EIT, has two years' experience as an Engineer in Training. After graduating from Gonzaga University in 2014 with a bachelor's degree in Civil Engineering, Andrew relocated to Colorado to pursue a career within civil engineering. During this time, he has developed the skills to complete complex site designs for both commercial and residential projects. Most notably, Andrew enjoys working with the team by applying his skills in grading, site design, and pipe network design.

John Assaad has 12 years' experience in Civil Engineering design. His experience includes grading and drainage in commercial, industrial, and residential land development, as well as mining, and oil and gas. He graduated from the University of Colorado at Denver in 2004 with a bachelor's degree in Civil Engineering. He also served in the United States Army and the Colorado Army National Guard for more than 22 years, with a variety of positions in domestic and foreign operations.
