**Albuquerque, NM** - Michael Wright, RA, NCARB, has been named leader of the architecture team at Wilson & Company Inc., Engineers & Architects, according to Daniel Aguirre, PE, CFM, senior vice president.

"Michael is a strong leader who has consistently contributed to projects through design excellence, and he has created valuable client relationships through his dedication to customer service. I have no doubt that he will continue to strengthen and grow the architectural team at Wilson & Company," he said.

Since starting at Wilson & Company in 1996, Michael has focused on providing clients with unique designs and solutions for projects, while building strong relationships with clients, coworkers, and consultants. Michael's goals include bringing strong leadership to the architectural group in all aspects of the work.

"Team strengths will be a key area of focus for long-term growth and increased performance," says Michael. "We will adapt to the changing areas of the industry and continue to provide premier client service on all projects. We know streamlining productivity to handle the "bread & butter" work while securing larger work opportunities will open doors for growth."

Michael has a Master of Architecture and Bachelor of Arts in Architecture from the University of New Mexico. Some of his recent projects include Mettie Jordan Elementary School, Hardison Auditorium and Field House in Eunice, NM; Gymnasium Renovations in Las Vegas, NM; Valley View Elementary School Renovations and Missouri Avenue Elementary School in Roswell, NM.
