

# BY THE NUMBERS

**WILSON & CO.**, one of New Mexico's largest privately held companies, provides engineering, architectural and environmental planning, survey and mapping, and construction management services to clients nationwide.

► In 1932, Bob Paulette and Murray Wilson formed Paulette & Wilson with offices in Salina and Topeka, Kan. The majority of their work was involved with design of dams and lakes for the Kansas Fish and Game Commission, and also public works improvements for Kansas municipalities. At Bob Paulette's death in 1941, the firm's name was changed to Wilson & Co., Engineers & Architects.

► For more than eight decades, clients have chosen Wilson & Co. to help them move concept to completion; unused spaces to productive places; under-utilized to efficient facilities; and rural and urban challenges to achievable solutions.

► For additional information, call [505-348-4000](tel:505-348-4000) or visit [www.wilsonco.com](http://www.wilsonco.com).
